Co-Organizers

- International Society of Innovation Methods (I-SIM)
- The Society of Systematic Innovation (SSI)
- Tsinghua University (THU)
- The Chinese Ergonomics Society (CES)

The 8th International Conference on Systematic Innovation (ICSI) & the 7th Global Competition/Exhibition on Systematic Innovation will publicize theoretical and technological advances in Systematic Innovation (SI), which include product and service innovation, and computer-aided SI tools/techniques. The conference will contain plenary speeches/tutorials by world-renowned SI researchers/practitioners and parallel technical sessions. Both research papers and applied case studies are welcome. The venue of the conference will be Tsinghua University, Beijing, China. Beijing is the capital of China and one of the most populous cities in the world. The city is China's political, cultural, and educational center, and home to the headquarters for most of China's largest companies. Tsinghua is one of the two top-ranked universities in China and ranked highest in Science and Technology areas. It is also one of the most beautiful universities in Asian areas. ICSI has attracted most relevant and high quality papers among those presented at all conferences on SI/TRIZ/CAI related fields.

Authors of Selected papers of ICSI/GCSI will be invited to submit an extended version of full paper for review and potential publication in the International Journal of Systematic Innovation. The official language of the conference is English.

FREE pre-conference tour - First 40 paid international registrants will be offered a free scenic/technical tour in Beijing. One regular registration covers one free tour.

Journal Publications of Selected Papers: Authors of the **ICSI paper competition** winners and **excellent paper** presentations will be invited to submit an extended version of full paper for review and potential publication in the International Journal of Systematic Innovation.

TOPICS OF INTEREST

- I) Strategic & Business Aspects of Systematic Business Innovation
- II) Technical Aspects of Systematic Product/Process/Service Innovation
 - A. TRIZ-based systematic innovation
 - B. Non-TRIZ based systematic Innovation
- III) Computer-Aided Innovation
- IV) Other new tools, theories, and applications that are related to or can be integrated with systematic innovation such as patent re-generation, circumvention, enhancement, and strategies, etc.

ABSTRACT/FULL PAPER SUBMISSIONS

- To assist us in arranging your presentation in an appropriate session, please identify one of the above categories (tracks) that best fits your paper.
- Submit either a one-page abstract or an extended abstract of two to three pages. Include contributions

and main ideas in sufficient detail for preliminary evaluation. Also include the following details in your extended abstract/full paper: Title, Name of Author(s), Affiliation(s), and full address of the corresponding author, including E-mail address, and phone, and fax numbers. One-page abstracts are acceptable. Extended abstracts are encouraged for easier and more accurate evaluation. Please download abstract/paper templates from the conference web site.
